**Note:**

**It is wise for you to purchase all your medications from the same pharmacy so they can be monitored by the pharmacist. Medications can interact badly with others. Pharmacists keep track of the drugs you are taking and can alert you and your doctor about possible harmful drug interactions. If you do choose to take advantage of a particular cost saving at a different drug store, you are strongly urged to let both pharmacists know the names of all the drugs you are taking.**

**A price of \$0.00 means that the drug price was unavailable at the time of the survey. Pharmacies with missing prices reflects an incomplete total.**

**Prices for Canadian pharmacies have been converted to US dollars at the time of the survey (\$1 Canadian = .65 US).**

**In order to buy prescription drugs in Canada you must have a prescription from a physician licensed in Canada.**
